MORE ABOUT US

VISION

Techno Prime RMC is the umbrella entity dedicated to providing engineering services and products to the industry and contributing to the development of new products through active research.

MISSION

Our mission is to continually improve and integrate systems for safety, health, environment, industrial relations, and quality assurance to ensure a seamless, consistent, and effective management system.

VALUE

Every product, service, and solution features a blend of technology and human values, which allows the company to meet both domain-specific customization and generic solutions.

Techno Prime RMC Private Limited is among the largest Ready Mix Concrete (RMC) companies with a Delhi NCR presence. Established in 2017, Techno Prime RMC is a name synonymous with trust in the concrete industry and has been a trendsetter in the areas of quality and technical services in concrete technology.

Techno Prime RMC is the high-tech solution to all your concrete needs, with a unique track record of innovative research, product development, and timely delivery of ready mix concrete with excellent quality. We have established a presence and manufacturing units located in Delhi and NCR, run by an experienced and well-trained team, to maintain high quality standards in service and product.

Techno Prime RMC deploys the latest automated computer control batching plants integrated with optimal use of technology to maintain high performance and efficiency.

Apart from this, we have developed an enterprise resource planning software that helps us manage the entire operation in the RMC plant, including production, inventory, finance, and customer relationships.

OUR QUALITY R&D

IN-HOUSE LABORATORY EQUIPMENTS

- Compression Testing Machine
- Aggregate Impact Value (AIV) Test Apparatus
- Elongation Index Gauge
- Flakiness Index Gauge
- Vicat's Apparatus
- Electronic Digital Weighing Balance
- Oven (Digital Indicator)
- Rapid Moisture Meter
- Concrete Cube Moulds
- Cement Cube Moulds
- Accelerated Curing Tank
- Slump Cone (with Tamping Rod)
- Vibrating Machine
- 10% Fine Value Mould
- Flexural Machine
- Sieves of different sizes
- Measuring Cylinders
- Flow Table Testing for Self-Compacting Concrete

"Quality is not an imagination, but the reality of life." It is a strong foundation and commitment that have given our customers confidence to rely on the quality and, more importantly, the services associated with Ready Mix Concrete (RMC). We are committed to consistency, achieving client satisfaction by providing quality products, including technical services, and ensuring timely delivery.

Our vast experience and in-depth knowledge of quality control based on rich domain expertise have given us confidence to establish Techno Prime RMC Private Limited Material Testing Laboratory (TP-CMTL). The state-of-the-art laboratory is situated in Sahibabad, Delhi NCR.

TP-CMTL, staffed by experienced technicians, tests a range of products and materials for industries and institutes and provides domain expertise for project support. Integration of optimal technology and equipped with calibrated equipment reflects international standards that redefine testing and laboratory services.

TP-CMTL testing capabilities range from routine quality tasks to advanced high-level testing with integrated design capabilities to provide end-to-end solutions.

OUR PRODUCT RANGE

SELF-COMPACTING CONCRETE

HIGH STRENGTH CONCRETE

HIGH VOLUME FLY ASH CONCRETE

HIGH EARLY STRENGTH CONCRETE

WATER RESIST CONCRETE

FIBER REINFORCED CONCRETE

COLOURED STAMPED CONCRETE

LIGHTWEIGHT CONCRETE

Techno Prime RMC is a highly competent concrete manufacturer with years of experience.

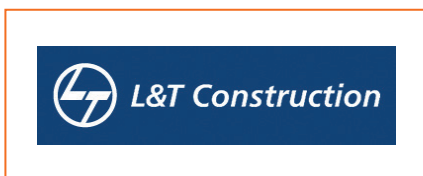

Certified with ISO 9001:2015 for RMC operations and quality controls, Techno Prime RMC has an installed capacity of 60 cubic meter (cum)/hr and 30 cum/hr, totaling 90 cum/hr at the site. The production of concrete is strictly done as per BIS guidelines and specifications to ensure the best quality at all times. Furthermore, with each batch, we always assure uniformity and on-time delivery.

We produce different grades of concrete, from M 7.5 onward.

At our manufacturing unit, all the ingredients are carefully measured and mixed together in specific proportions to achieve all types of desired concrete properties.

We also do custom mixing of RMC.

OUR HAPPY CLIENTS
